Education

- **California State University Northridge** — Los Angeles, CA
  Bachelor of Science in Computer Science — *Aug. 2022 – May. 2024*
- **California State University Northridge** — Los Angeles, CA
  Master of Science in Computer Science — *Aug. 2024 – Jul. 2025*

Skills

- **Languages**: Java, Python, C, C++, JavaScript, SQL, Racket, Prolog, C#, Visual Basic
- **Frontend**: React, Vite, HTML, CSS
- **Backend**: Spring Boot, REST APIs, Node.js
- **Databases**: PostgreSQL, MySQL
- **Deployment**: Git, GitHub, Docker, Firebase, Render
- **Other Skills**: Agile Development, Machine Learning, Distributed Systems, Parallel Computing, Mobile Development, Game Development

Experience

- **California State University** — Los Angeles, CA
  REU Student Mentor — *Jun. 2025 - Jul. 2025*
  - Mentored an undergraduate research team investigating image-recognition techniques for plant biomass estimation, contributing to a research paper published in the 2025 IEEE International Conference on Data Mining Workshops (ICDMW).
  - Delivered technical lectures on computer science tools, technologies, and research methodologies to support undergraduate researchers.
- **5Head Games** — Los Angeles, CA
  Enders Gate QA Intern — *Jan. 2024 - May. 2024*
  - Conducted black-box stress testing on the Beta version of Enders Gate, identifying defects and evaluating game stability under varied gameplay conditions.
  - Performed regression testing and documented reproducible bug cases for the development team to investigate and resolve.

Projects

- **Wildfire Visualization** — *Aug. 2024 - Jul. 2025*
  - Developed an interactive geospatial visualization for exploring wildfire data and machine learning predictions.
  - Built using React and the Deck.gl.
- **myHeath Mobile App** — *Aug. 2023 - May. 2024*
  - Developed an Android application to help dialysis patients manage their care and lifestyle, including scheduling appointments at dialysis centers.
  - Built using Java and Firebase.
